& PROJECT MANAGEMENT

The modern slavery statement

Our business, Projex Solutions is committed to combatting slavery and human trafficking in its business and supply chains, and we make this statement to assist with compliance with the Modern Slavery Act 2015.

As our business has a turnover of less than £36 million, we do not have a legal obligation to produce a modern slavery statement. However:

- a. We agree that exploitation within all supply chains ending in the UK is a blight on our society, and we are committed to playing our part in eliminating exploitation;
- b. We understand that customers with obligations under the Modern Slavery Act 2018 cannot comply with those duties without our cooperation.

To that end, we confirm that we have examined our own business and, to the extent that it is reasonably practicable, businesses within our supply chain and we confirm the following:

1. We confirm that within our own business, no relevant offence relating to slavery or human tracking has been committed.
2. We have made enquiries of businesses that supply directly to us and we are confident that no relevant offence is committed in that business.
3. Insofar as it was reasonably practicable, we have examined our supply chains and confirm that we found no evidence of slavery or human trafficking.

Further details about our business and supply chain are provided below.

Our business provides services to the Chemical, FMCG, Pharmaceutical & Energy sectors, we are a multidiscipline Engineering Design & Project Management company offering services encompassing Safety, EC&I, Process, Mechanical & Project Engineering

Our business structure is 20 employees located in Brighouse West Yorkshire with a Director of Engineering Services having a multidiscipline team of managers reporting. We operate mainly throughout in the UK & Europe with some projects being executed as far away as Saudi Arabia.

Our suppliers are generally recruitment companies supplying personnel to support on projects, these companies have a Policy which covers the Modern Slavery Act 2018 in which they comply and run within the UK for ourselves.

We understand that certain industry sectors and geographical regions entail greater risk of exploitation than others. We do not believe that our supply chain is in one of those sectors.

Where it is reasonably practicable, we ensure that businesses in our supply chain have made a similar statement relating to slavery and human trafficking.

The person in our business responsible for assessing matters relating to slavery and human trafficking is Jamie Ashton.

We also encourage all employees to report on any matters relating to slavery or human trafficking in our supply chains of which they become aware.
